### **DETAILED ACTION**

1. This office action is responsive to the preliminary amendment filed on 10/14/2003. As directed by the amendment, claims 1-2 have been amended, no claims has been cancelled nor added. Thus, claims 1-3 are presently pending in this application.

### ***Allowable Subject Matter***

2. Claims 1-3 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious a steering mechanism of a massaging machine, said steering mechanism serving to actuate a massaging device of the massaging machine to operate and to move in a reciprocating manner, said steering mechanism comprising: a shaft; a drive gear mounted on said shaft and engaged with a worm of a motor, said drive gear comprising a master gear linked with a slave gear of the massaging machine by a chain for actuating the massaging device; and a driven seat mounted on said shaft, said driven seat comprising of an auxiliary gear engaged with a transmission gear serving to actuate a bidirectional threaded rod via two sector gears, thereby resulting in a reciprocating motion of the massaging device; and in combination of all elements, and further more it does not disclose that the driven seat is comprised of a unidirectional bearing and is mounted on said shaft by said unidirectional bearing whereby said unidirectional bearing serves to disable the massaging device to engage in the reciprocating motion at the time when said drive gear is driven to turn in a reverse
